Forward Looking Statement

This presentation contains “forward-looking statements.” These statements include the plans and objectives of management for future operations, the performance of portfolio companies, financial results and performance of the Company, transitioning to a yield portfolio, making yielding investments, monetizing the equity portfolio, accessing additional leverage, identifying loan investments with terms indicated herein, continuing to make and grow distributions, loan portfolio growth, and availability of funds. Information in this presentation is not an update or reaffirmation of previously disclosed information. These forward-looking statements are subject to the inherent uncertainties in predicting future results and conditions. Certain factors that could cause actual results to differ materially are included in the “Risk Factors” section of the Company’s periodic filings with the SEC, and include uncertainties of economic, competitive and market conditions, uncertainties in the Company’s ability to deliver value to all shareholders and execute its yield investment strategy, the performance of the Company’s investments, the level of dividends or other distributions to be made, and future business decisions, all of which are difficult or impossible to predict accurately, and many of which are beyond the control of the Company. Although the Company believes that the assumptions underlying the forward-looking statements included herein are reasonable, any of the assumptions could be inaccurate and therefore there can be no assurance that the forward-looking statements included herein will prove to be accurate. Therefore, the inclusion of such information should not be regarded as a representation by the Company for any other person that the objectives and plans of the Company will be achieved. This presentation should be read in conjunction with the Company’s recent SEC filings.

Company Highlights

Consistent Distributions and Return of Capital

- MVC has paid consistent quarterly dividends to shareholders that have grown over time. The Lending team has strong credit quality expertise and has generated solid historical realized returns, which has the potential to further improve distributions to shareholders

Focus on Improving Yield

- Recent investment activity and monetizations demonstrate the Company's multi-year transition to a yield-focused BDC.

Unique Deal Flow

- Well-established, nationwide Commercial Bank Partners ("CBP") network provides unique Lower Middle Market ("LMM") deal flow and attractive risk-adjusted returns.

Significant Access to Capital

- Access to potential significant investment capital for future debt investments through cash, potential increased leverage capacity, and realizing potential equity monetizations.

Co-Investment Opportunities

- Expected to help enhance deal flow, accessing larger deals, while improving diversification and granularization across the portfolio (smaller investment sizes).

Robust Market Opportunity

- With banks reducing the types of loans they make to the LMM due to increased regulations, MVC is poised to fill the void.

Experienced Management Team Enhanced

- Strengthened investment team to spearhead transition to yield.

Note: Please see important disclosures (page 22) and footnotes (page 21) at the end of the presentation for additional information.

Commitment to and Alignment with Shareholders

Over the past 16 months, MVC has:

- **Completed meaningful steps towards yield-focused BDC pivot**
 - In fiscal 2018, yielding deal activity of \$61.5 million at an average yield of 12.1%.
 - Sold Plymouth Rock Energy, a portfolio company of the MVC Private Equity for an approximate 3.4X return¹
 - Sold equity investment in Centile, an European asset, for approximately 2X return on our initial investment, despite currency headwinds over the holding period
 - Sold equity investment in U.S. Gas & Electric for total consideration of \$127.4 million (IRR of over 120% including all fees and income earned over the life of the investment)
 - \$50 million cash / \$66.4 million into yielding securities of pro forma company / \$11 million note pay down
- **Revised management fee structure to further align interests of management and MVC shareholders and added new board talent to help steer the Company**
 - If P/NAV discount >20%, management fee reduced to 1.25%; between 10-20% = 1.50%; <10% or eliminated, management fee would not exceed 1.75% - Will therefore permanently remain lower than contractual, historical rate
 - Independent Board directors have agreed to 25% compensation reduction until P/NAV discount <10%
- **Increased quarterly common equity dividend by 11% to \$0.15 per share starting in FQ4 2017**
 - No dividend cut since quarterly dividend policy inception; 2nd largest % dividend increase in BDC industry since 2015
- **Completed nearly \$46 million of tender offers and share repurchases (estimated total accretion of \$0.56 per share) as of October 31, 2018**
- **Refinanced 7.25% Senior Notes for 6.25% Senior Notes, saving shareholders \$1.9 million (net of offering costs over the life of the Notes)***

All actions are consistent with MVC's stated commitment to enhancing shareholder value while continuing the transition to a yield-focused BDC

Note: Please see important disclosures (page 22) and footnotes (page 21) at the end of the presentation for additional information.

¹ The return of 3.4X is based on the equity investments made since November 2011 and assumes the full receipt of the escrow proceeds that are anticipated to be released at various dates ranging from 120 days from closing through one year following the closing, receipt of potential tax refunds, and expenses to be paid.

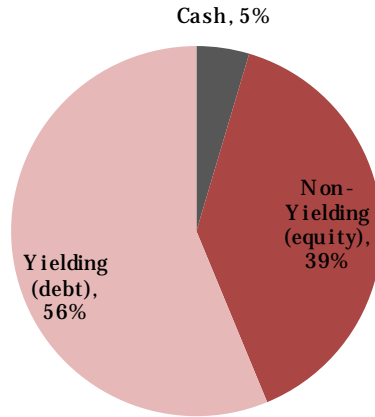

*\$1.9 million in savings is calculated as the differential in interest expense between the 6.25% Senior Notes and the 7.25% Senior Notes over the five year term of the Notes, net of the estimated offering fees and expenses.

The Transformation of MVC is Underway

FYE 2013

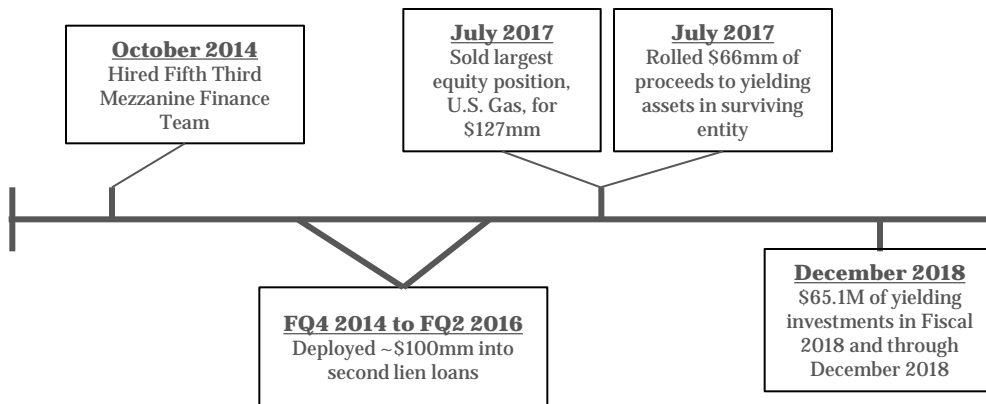

Current (10/31/2018)

Target Portfolio Post-Pivot {~24 mo}^{3, 4}

Yield-focused actions we have already taken

Next phase of transformation

Look to deploy current cash balance into yielding assets (currently, targeting 10-13% yields)

Orderly equity liquidations and redeployment into yielding assets

Possible Next Step: Leverage the balance sheet more to move closer to industry norms⁴

- Current debt/equity approx. 51%⁵
- Industry average approx. 80%⁶
- If levered more, fully implies possible \$66 mm of additional yielding investment potential

Note: Please see important disclosures (page 22) and footnotes (page 21) at the end of the presentation for additional information.

Top Line Growth Potential^{4,7}

Potential equity monetizations combined with existing cash and credit line accessibility provide significant potential dry powder for transitioning more fully to a yield-focused BDC without raising incremental equity capital.^{4,7}

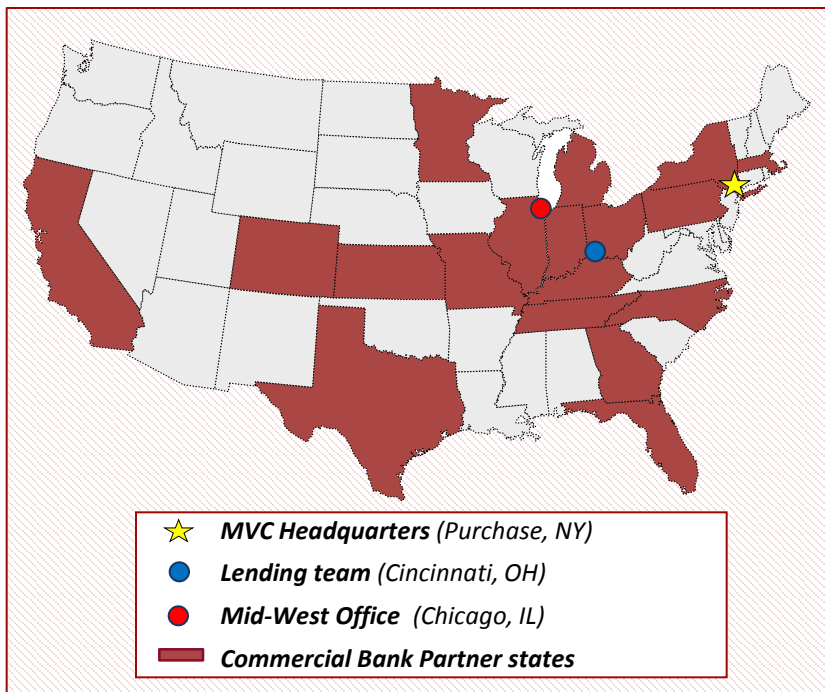

Potential Non-Debt Liquidity Sources	Potential Liquidity (\$mm)
Estimated Cash Available as of October 31, 2018	\$16
<u>Equity Investments Sought to be Monetized⁷</u>	<u>\$75</u>
Total Non-Debt Liquidity Sources	\$91
Potential Leverage Normalization	Potential Liquidity (\$mm)
<u>Potential Increase in Debt/Equity Ratio from 51% to above 80%^{4,7,8}</u>	<u>\$66</u>
Total Potential Dry Powder	\$157

Significant potential earnings power without the need for external equity financing and without stretching on loan structure or credit quality^{4,9}

Note: Please see important disclosures (page 22) and footnotes (page 21) at the end of the presentation for additional information.

Unique Deal Sourcing Overview

Nationwide Deal Network

MVC's unique network of trusted relationship managers of CBPs provides 'first look', non-auction opportunities for 2nd lien debt investments

Unique Sourcing, Unique Structure

- MVC hired Fifth Third Bank's mezzanine finance group (led by David Williams) in October 2014
- The lending team has built its network of CBPs through its 40+ years of commercial banking experience
- CBPs streamline execution and lower costs for borrowers by providing 'unitranche-like' structure
 - Expedites time to closing via coordinated diligence, approval, and documentation process
 - Reduces financial reporting and compliance processes over life of loan
 - 'Pre-baked'/coordinated inter-creditor agreements
- Additional sources of deal flow include:
 - Private Equity – 70+ PEG relationships; top 20 have provided repeat opportunities
 - Midwest Focus – Debt team's Cincinnati, OH office and local network provides opportunities not available to big market (NYC, etc.) managers; **drives attractive risk-adjusted pricing for MVC**
 - Tokarz and TTGA Factor – Mike Tokarz and TTGA platform open doors and create more traditional sourcing opportunities

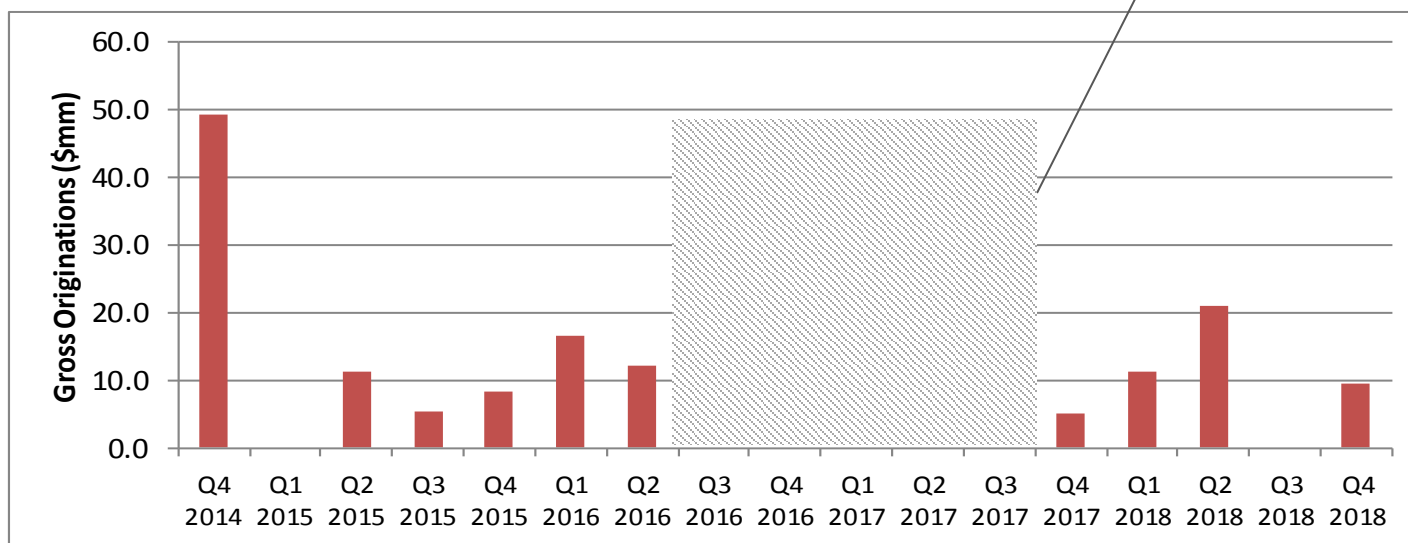

Note: Please see important disclosures (page 22) and footnotes (page 21) at the end of the presentation for additional information.

Strong Lending Team Track Record¹⁰

MVC's lending team has a track record across various industries and through multiple cycles. Patience and prudence are a priority.

- Lending team has a 15+ year track record originating LMM loans – experienced multiple recessions
- Over \$1 Billion originated since 2001 across 173 investments, primarily second lien loans through December 2018
 - Average total leverage of 1.91x and 3.08x, respectively on deals
- Seven new yielding investments totaling approximately \$42.3 million originated in fiscal 2018 and through December 31, 2018 and approximately \$1.1 million in common stock invested

Capturing the Lower Middle Market Opportunity

Underbanked Behind Sr. Secured Debt

- Regulations have caused traditional banks to exit the market. Despite recent loosening of regulations, banks reluctant to lend to sub \$15m EBITDA borrowers
- Large capital providers like GE Capital exited the market after the financial crisis
- Many private credit funds and larger BDCs have moved upstream in both loan size and loan seniority, creating opportunity for small second lien/mezzanine loans

Declining Number of U.S. Banks¹¹

Loan Volumes¹²

Unique Partnerships

- Commercial banks need junior capital partners to compete against non-bank lenders for a unitranche-like solution
- Symbiotic structure increases long-term funding for senior lender and deal flow for MVC
- 'First call' for a large network of small sponsors creates annuity-like model

Note: Please see important disclosures (page 22) and footnotes (page 21) at the end of the presentation for additional information.

MVC's Distributions To Shareholders^{13,14,15}

MVC is one of the top performers in terms of consistent dividend payments to shareholders which have grown

One of seven BDCs to Grow its Dividend Since 2015

Paid Dividends for Every Quarter for the Last 55 Quarters through January 2019

- *MVC has consistently paid quarterly dividends, and on two occasions supplemented with special cash dividends*
- *Cumulative dividends per share of \$7.44 since fiscal 2004 through January 24, 2019*

Note: Please see important disclosures (page 22) and footnotes (page 21) at the end of the presentation for additional information.

Summary

Portfolio Shift Underway

- MVC is taking steps to accelerate shift from equity-focused portfolio to more yield-focused, which is intended to help drive increases in book value and dividends
- Addition of lending team is accelerating the process
- Lending team has long-term track record of managing large volumes of loans throughout various credit cycles
- Solid investment pipeline at MVC

Lower Middle Market Focus

- Due to inter agency guidelines on leveraged lending, middle market companies are increasingly being underserved by traditional financing sources, such as banks
- BDCs and other alternative financing sources are filling the gap, providing needed capital to companies with strong fundamentals

Unique Deal Flow

- MVC's investment team sources opportunities through its extensive network of contacts
- Unique network of trusted relationship managers of CBPs provides 'first look', non-auction opportunities for 2nd lien debt investments
- Companies are attracted to working with MVC because of its reputation of providing both excellent operating and financial support, evidenced by repeat customers

MVC Opportunity

- Experienced investment professionals
- Significant shareholder alignment¹⁶
- Consistent historical dividend with potential to expand with more yielding investments and possible equity monetizations providing added capacity for yield

Note: Please see important disclosures (page 22) and footnotes (page 21) at the end of the presentation for additional information.

There can be no assurance that MVC will access leverage to the levels indicated, or that additional leverage will be accessed at all. There also can be no assurance that equity portfolio monetizations occur and that they occur at the current fair values. Thus, there can be NO assurance that the targeted portfolio composition will be achieved.
 5. Excludes the BB&T line which is repaid after the quarter-end
 6. 10Q & 10K and financial filings of BDC peer group used in illustration. Several BDCs have sought Board/shareholder approval to take advantage of increased leverage made available through new regulations (see footnote 8 below).
 7. Assumes monetizations at current fair values.
 8. New BDC legislation allows for increased leverage with Board approval / shareholder approval and making certain disclosures. MVC has not asked for this additional flexibility as of the date of this presentation.
 9. Structure criteria are based on current interest rate and market circumstances, among other factors. These criteria are subject to change without notice at any time.
 10. These investments represent all investments made by the Lending Team for MVC since joining in October 2014. Leverage statistics reflect leverage at the time of underwriting. Under no circumstance should the performance of the Lending Team/Yield Team prior to its tenure at MVC Capital, Inc. be viewed as a substitute for the performance of MVC Capital, Inc. The Yield Team’s performance prior to joining MVC Capital, Inc. was attributable to a team that included employees who are not a part of MVC Capital, Inc. or its Yield Team. The Yield Team’s prior performance was also not subject to certain investment limitations, requirements and other restrictions, which if applicable, may have adversely affected the performance results. Further, any investment on MVC Capital, Inc.’s behalf is subject to approval by MVC Capital’s Portfolio Manager, Michael Tokarz.

There also can be no assurance that future dividend payments will match or exceed historic ones, or that they will be made at all. This presentation is for informational purposes only.
